To Whom it May Concern:

*Mike Swisher has been our IT Support Manager for over fifteen years, and his work has always been exemplary. Mike is always responsive to our needs and we could not be more pleased with his results.*

*In addition to setting up and maintaining our Windows Domain-Based network, Mike created our Business Management software, RouteManager, from scratch. Our RouteManager platform powers our very large operation and allows us to process thousands of data points daily. Mike began the process by viewing our previous Excel tracking system and conducting interviews with everyone from our data-entry clerks to our end users. Mike showed excellent insight in translating our explanations into this robust software.*

*I would enthusiastically recommend Mike Swisher to any prospective Client or Employer.*

*Please call me at 303-577-1250 if you would like to discuss in further detail.*

Thank you,
