Former Marketing Director

I am writing this letter to endorse Mike Swisher. I worked with Mike for several years, and I can say that Mike is more than an IT consultant- he is a true business partner! From network troubleshooting to custom software solutions, Mike has answered every need with simple, creative solutions. Throw him an idea, and he comes back with a full-blown solution! And he is a great person to work with, too.

I would enthusiastically recommend Mike to anyone who wants real talent and dedication.

If you would like to speak further, Mike can provide you with my contact information.

Thank You,
