Mike Swisher Letter of Recommendation

To Whom It May Concern:

My name is Lisha Baurkot, and I am the operations manager of Nordic Analytical Laboratories. The intent of this letter is to provide you with information regarding Mike Swisher, a potential candidate for your open position. I have been working with Mike regularly over the past four years on custom laboratory information management systems (LIMS) software created by Mike, under my direction. Together, Mike and I have worked on two large-scale launches of LIMS software, and our company uses the software developed by Mike for our laboratory's inventory tracking needs.

Mike has always been a pleasure to work with, making sure the needs of our laboratories are taken care of. He has continued to be extremely responsive and attentive to changes and new feature additions requested by our organization, which tend to be quite complex.

His knowledge of coding, user interfacing, App development, and software design have exceeded our expectations. Mike has designed new features for our LIMS and has implemented the roll out of changes in a timely manner that allows our business to succeed and grow with the everchanging nature of our industry.

It is with pleasure that I refer him to you for his future endeavors. Should you require additional information, I may be contacted at my corporate email: lisha@nordicanalytic.com.

Respectfully,

Lisha Baurkot
